Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

PATENT OFFICE Patents and Designs

Calcutta, the 19th April 1958
CORRIGENDA

(1)

In the Gazette of India, Part III, Sec. 2 dated 5th April 1958—

In page 97, column 1, under the heading "Amendment Proceedings"—

Cancel the notice under Sec. 17 in respect of Patent Application No. 56512.

(2)

In the Gazette of India, Part III, Sec. 2 dated 1st March 1958—

In page 58, column 2, under the heading "Application for Patents"—

Against No. 63172—

for "Glovers (Chemical) Limited and Council for Scientific and Industrial Research".

read "Glovers (Chemicals) Limited and Council for Scientific and Industrial Research".

In page 59, column 2, under the heading "Applications Accepted"—

Against No. 58209—

for "ohen" read "when".

(3)

In the Gazette of India, Part III, Sec. 2, dated 8th March 1958—

In page 66, column 2, under the heading "Applications for Patents"—

Against No. 63260—

for "into big" read "onto pig".

(4)

In the Gazette of India, Part III, Sec. 2, dated 15th March 1958—

In page 75, column 1, under the heading "Renewal Fees Paid"—

for No. "46687" read No. "44687"

(5)

In the Gazette of India, Part III, Sec. 2, dated 22nd March 1958—

In page 80, column 2, under the heading "Applications Accepted"—

Against No. 61039—

for "more" read "move".

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

3rd April 1958

63645. M. A. Chaudary. Improvement in and relating to generation of energy.

63646. American Steel Foundries. Improvements in a railway draft gear.

63647. Commissariat A L'Energie Atomique. Improvements in or relating to method and device for the measurement of magnetic fields by magnetic resonance.

63648. Olin Mathieson Chemical Corporation. Synthesis of steroids.

63649. Chugai Selyaku Kabushiki Kaisha. A process for the preparation of glucuronolactone.

63650. D. E. Ferris. Method and apparatus for producing hypochlorite of soda in an electrolytic cell.

5th April 1958

63651. P. B. Menon. Power regulator for electric fans.

63652. Capt. A. N. D'Silva. An improved self-filling pen.

63653. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Production of bulked yarn.

63654. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Printing ink and process for preparing the same.

63655. British Nylon Spinners Limited. Improvements in, or relating to yarn and its manufacture.

63656. British Nylon Spinners Limited. Improvements in or relating to yarn packages. (5th April 1957).

63657. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to piperidine derivatives and process for their preparation.

63658. Textilose Limited. Improvements in or relating to paper sticks for supporting lollipops and like confections.

7th April 1958

63659. Council of Scientific and Industrial Research. An improved vacuum tester for canned foods.

63660. O. D. Smith. Cutting-off machine. (11th April 1957).

63661. Morgan Fairest Limited. Improvements in or relating to bottle-crating machines. (13th April 1957).

63662. United States Steel Corporation. Troughed belt conveyor.

63663. May & Baker Limited. Improvements in or relating to amines and to processes for their preparation.

63664. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in the preparation of antibiotics.

63665. General Aniline & Film Corporation. Ester type surface active agents.

63666. Imperial Chemical Industries Limited. New Molluscicidal compositions. (17th April 1957).

63667. Dunlop Rubber Company Limited. Method of coating articles. (17th April 1957).

63668. Dr. R. D. Desai and Dr. R. M. Desai. A process for azoic dyeing of cellulose acetate, wool, silk, and nylon textiles.

63669. Schering Aktiengesellschaft. Process for the manufacture of the aminoacetates of saturated and unsaturated 21-hydroxy-pregnane compounds and their water-soluble acid addition products.

63670. Unitex Limited. Improvements in pickers for looms for weaving. (8th May 1957).

63671. Pye (Ireland) Limited. Improvements in or relating to electrically controlled traffic signals. (9th April 1957).
63672. Uclaf. Improvements in or relating to organic compounds. (31st March 1958).
63673. Mavor & Coulson Limited. Improvements relating to cutter-chain machines for mining coal and other minerals. (9th April 1957).
63674. Ericsson Telephones Limited. Improvements in or relating to key-operated electric switches. (9th April 1957).
63675. Ing. A. Maurer S.A. Yarn guiding and treating apparatus.
63676. Creed & Company Limited. Improvements in teleprinter clutches. (4th July 1957).
63677. Hammerle A.G. Sheet-metal-working machine.
63678. The Standard Motor Company Limited. Contra-flow type heat exchanger. (20th May 1957).
63679. The Standard Motor Company Limited. Gas turbine power plant. (20th May 1957).
63680. Schnellpressenfabrik Aktiengesellschaft Heidelberg. Improvements in or relating to feeding devices, especially for platen presses.
63681. Hilmer Limited. Improvements in or relating to tube bending machines. (10th April 1957).
63682. Societe Anonyme Des Manufactures Des Glaces Et Produits Chimiques De Saint-Gobain, Chauny & Cirey. An improved process for the production of cross-linked polyvinyl chloride.
63683. Ciba Limited. Pharmaceutical preparations containing a pregnene compound.
63684. Ciba Limited. New functional derivatives of a pregnene compound and process for their manufacture.
63685. Council of Scientific and Industrial Research. A process for the manufacture of light constructional material such as hard boards, laminates, blocks or the like. [Addition to No. 56582].
8th April 1958
63686. Judhistir Roy. Improvements in or relating to water supply systems.
63687. N. V. De Bataafsche Petroleum Maatschappij. Lubricating oil compositions
63688. Columbian Carbon Company. Rubber compounding
63689. Westinghouse Brake & Signal Company Limited. Improvements relating to centralised traffic control systems. (18th April 1957).
63690. T. Hindmarch. Locking device for propeller blades. (15th April 1957).
63691. British Ropes Limited. Improvements in or relating to machines for treating wire ropes. (17th April 1957). [Addition to No. 52785].
63692. SKF Kugellagerfabriken Gesellschaft mit beschränkter Haftung. Improvements in or relating to textile drafting mechanism.
63693. Montecatini Societa Generale Per L'Industria Mineraria E Chimica, and K. Ziegler. Method of preparing shaped articles.
63694. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. High impact strength polymeric compositions and process for their preparation.
63695. Montecatini Societa Generale Per L'Industria Mineraria E Chimica, and K. Ziegler. Process for preparing polymers of olefins.
63696. Montecatini Societa Generale Per L'Industria Mineraria E Chimica, and K. Ziegler. Process for the preparation of linear high polymers of -olefins. [Addition to No. 56197].
63697. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Antiobesity preparations.
63698. Ciba Limited. Process for polymerizing basic amides.
63699. Ciba Limited. Rapidly hardenable compositions of epoxide-compounds and complexes of Friedel-Craft's catalysts.
63700. Ciba Limited. New amino-phenylmercapto compounds and process for their manufacture.
9th April 1958
63701. V. R. Sonti. A re-usable fuse.
63702. N. V. De Bataafsche Petroleum Maatschappij. Lubricant for steel wire ropes.
63703. T. Hindmarch. Marine transmission gear with controllable pitch propeller actuating mechanism. (15th April 1957).
63704. T. Hindmarch. Thread and nut actuation of controllable pitch propeller. (15th April 1957).
63705. Subodh Kumar Ghose. An apparatus for counteracting the effects of vapour lock in the fuel supply systems of engines driven by highly volatile liquid fuels.
63706. General Electric Company. Food process and product.
63707. Zavody Presneho Strojirenstvi, narodni podnik. A double friction clutch for motor vehicles.
63708. The Director of Research and Development (General). Improvements in or relating to food containers.
63709. DR. P. Dornbusch. Improvements in or relating to calendars and rolls therefor.
63710. Organon Laboratories Limited. 19-nor-steroid compounds and process for the preparation thereof.
63711. A/S Kosangas. Reduction valves for bottled-gas installations.
63712. A/S Kosangas. Fitting for gas cylinders or the like gas containers.

Alteration of Date

58588. The claim to priority date 14th October 1955 has been abandoned and the application dated as of 8th October 1956, the date of filing in India.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

57893. Harsco Corporation. A method of, and apparatus for, recovering magnetisable metal-bearing material from scrap. Accepted on 8th April 1958.

Method comprising feeding the scrap to and through a rotating and apertured tumbler barrel to break away encrusting substances from metal-bearing pieces and particles of the scrap and to separate larger pieces, dividing smaller pieces into two sizes classifications, subjecting each of the said size classifications to the action of a corresponding magnetic separator.

58133. L. M. Chakradeo, M. L. Chakradeo, P. C. Chakradeo, S. L. Chakradeo, P. L. Chakradeo, V. L. Chakradeo and U. L. Chakradeo. Improvements in the construction of rail-joints for railways, tramways and the like, for reducing shocks and sounds. Accepted on 5th April 1958.

The gap between adjacent rail heads is filled up by welding and the continuous railhead thus formed is cut in a slanting manner.

58308. Elemelt Limited. Improvements relating to electrodes for glass melting or refining furnaces. (9th September 1955). Accepted on 8th April 1958.

Comprising an electrode body and a supporting stem having an internal passage for cooling liquid and accommodating a conductor member for conveying current to the electrode body.

58307. Elemelt Limited. Improvements relating to electric furnaces for glass melting. Accepted on 8th April 1958.

Having an electrode provided with means for controlling the extraction of heat from the current communicating face towards a cooled part thereof comprising a thermally resistive barrier.

58558. A. N. Rajan. Improvements in or relating to fuses. Accepted on 3rd April 1958.

Fuse wire held within glasstube, with its two ends soldered respectively to two nicked brass caps fitted at the two ends of the glass tube by a binding agent comprising a cement of Ethoxylene resin.

58561. Reynolds Metals Company. Method and apparatus for expanding pressure welded passageway

panels, and panels made thereby. Accepted on 5th April 1958.

Introducing a measured volume of liquid into the panel to expand the passageway internally to a corresponding volume.

58571. Woodall-Duckham Construction Company Limited. Improvements relating to the discharging of coke from horizontal coke oven batteries. (7th October 1955). Accepted on 5th April 1958.

Comprising a transmitter located on one of the operating machines and adapted to project a beam of electromagnetic radiation parallel to the longitudinal axes of the ovens.

58580. Elemelt Limited. A method of and furnace for refining glass. Accepted on 7th April 1958.

By passing electric current through glass between horizontally placed electrodes so as to promote an upward convection flow of glass and withdrawing glass so as to exert a downward pull upon elemental volumes therein.

58581. Elemelt Limited. Improvements relating to methods of and furnaces for melting or refining glass. Accepted on 7th April 1958.

By subjecting glass to heating effect of electric current passed between electrodes disposed at opposite ends of an outlet opening through which glass passes through a duct to a further chamber and passing an auxiliary current from said opposite ends and then through the duct.

58588. St. Anne's Board Mill Company Limited. Improved method and apparatus for manufacturing paper or fibrous board. Accepted on 3rd April 1958.

By adding subsequent layers of watery pulp on opposite faces of base layers and dewatering the same from exposed surfaces.

58589. British Telecommunications Research Limited. Improvements in or relating to telephone or like systems. (12th October 1955). Accepted on 7th April 1958.

Having subscribers' meter fees recorded on a register device of the magnetic drum type.

58591. The General Electric Company Limited. Improvements in or relating to methods of, and apparatus for, severing glass tubing. (14th October 1955). Accepted on 8th April 1958.

Which comprises a repetition of the steps of pre-heating an annular zone of the tubing and then passing an electric current round a circumferential path to effect severing.

58592. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Articles of polytetrafluoroethylene having cementable surface areas and method therefor. Accepted on 8th April 1958.

The article is characterised by a body of non-porous sintered polytetrafluoroethylene and a cementable zone on the surface of the body consisting of a porous layer of polytetrafluoroethylene integral with the body.

58604. Deutsche Gold-Und Silber-Scheideanstalt Vormals Roessler. Process for separating gaseous or vaporous substances more especially isotopes. (27th September 1956). Accepted on 8th April 1958.

Splitting the mixture to be separated into peripheral stream and core stream.

58630. Saunders Valve Company Limited. Improvements in and relating to diaphragm valves. (14th October 1955). Accepted on 7th April 1958.

Shallow transverse weir separating the inlet and outlet ports and mechanism pressing diaphragm into closing position.

58640. The Dow Chemical Company. Improvements in or relating to stabilization of polyvinylpyrrolidone and compositions containing same. Accepted on 8th April 1958.

The composition contains a major portion of polyvinylpyrrolidone and a minor proportion of zinc formaldehyde sulfoxylate.

58753. Tootal Broadhurst Lee Company Limited. Process for the treatment of textile materials. (1st November 1955). Accepted on 8th April 1958.

Wherein the fabric is treated with a textile lubricating agent and with a resin forming intermediate condensation product formed from formaldehyde and melamine or a derivative thereof.

59073. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to iminodibenzyl derivatives and processes for their production. (18th September 1956). Accepted on 3rd April 1958.

An iminodibenzyl base is treated with a compound of a piperazine grouping to produce an iminodibenzyl derivative.

59229. Waagner-Biro Aktiengesellschaft. Apparatus for stripping ingot moulds and/or ingots. Accepted on 8th April 1958.

Lifting gear is provided with control elements which operate the outer tongs of stripping gear by lifting ropes.

59290. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to phenothiazine derivatives and processes for their production. Accepted on 3rd April 1958.

Phenothiazine-3 carboxylates are converted into their 10-basically substituted derivatives by conventional methods.

59404. Pilkington Brothers Limited. Improvements relating to glass. (24th January 1956). Accepted on 7th April 1958.

Comprising 40—60 per cent SiO₂, 15—45 per cent CaO, 0—20 per cent MgO and 0—15 per cent Al₂O₃ by weight.

59687. American Cyanamid Company. Production of tetracycline. Accepted on 7th April 1958.

Adding to a fermentation medium with tetracycline producing microorganism of the genus Streptomyces a 2,5 substituted 1,3,4 azole.

59776. Imperial Chemical Industries Limited. New dyeing process for silk and superpolyamide textile material. (7th March 1956). Accepted on 8th April 1958.

An aqueous solution of a water-soluble azo-or anthraquinone dyestuff is applied for dyeing silk.

59962. Ciba Limited. Process for the manufacture of vat dyestuffs and to a process of dyeing or printing textiles with vat dyestuffs. Accepted on 5th April 1958.

A 1, 4-diaminoanthraquinone is condensed with a 1, 4-dichloroanthraquinone and the product treated with carbazoling agent.

60038. Societe Anonyme Des Usines Chausson. A compressor, more particularly for refrigerating fluid. Accepted on 9th April 1958.

Cylinder unit provided with a housing of circular cross-section having curvature corresponding to trajectory path followed by piston.

60097. Union Carbide Corporation, formerly known as Union Carbide and Carbon Corporation. Primary cell and method for the production thereof. (1st August 1956). Accepted on 8th April 1958.

Comprises a metalanode a metallic cathode collector and silver halide electrolyte and a depolarizing oxide.

60703. Laboratoria Pharmaceutica Dr. C. Janssen N.V. and N.V. Nederlandsche Combinatie Voor Chemische Industrie. Improvements in or relating to a process for preparing new parasymphaticolytically active α , β -diphenyl propane derivatives and their tertiary and quaternary salts. Accepted on 3rd April 1958.

α , β -diphenyl γ -hexamethylene imino butyronitrile is hydrolysed.

60743. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for fixing pigments on fibrous materials and two-dimensional structures. Accepted on 9th April 1958.

Applying to the fibrous material a pigment together with carbo bean flour and polyfunctional compounds.

60879. Sandoz Ltd. New Derivatives of the lysergic acid series and process for their manufacture. (25th April 1957). Accepted on 5th April 1958.

Lysergic acid is reacted in liquid ammonia with alkalimetal amide and the product is reacted with an alkyl or benzyl halide.

61076. Bristol Laboratories Inc. Process for the production of tetracycline. Accepted on 5th April 1958.

A chlorotetracycline producing species of Streptomyces is grown in a culture medium in the presence of a compound selected from the group comprising a thiazole or thiol.

61284. Organon Laboratories Limited. New steroid esters and the preparation thereof. Accepted on 5th April 1958.

A steroid is esterified with an aminomono-carboxylic acid and if desired converted into a water-soluble acid addition salt.

61603. Institut Pasteur. Vaccines and preparation thereof. Accepted on 3rd April 1958.

An aqueous preparation containing infections micro-organism and antigens is subjected separately to the action of formaldehyde and to the action of β -propiolactone.

61622. Dorr-Oliver Incorporated. Clarification, settling and like tanks. Accepted on 8th April 1958.

Clarification equipment and facility for accommodating surges in supply are embodied in single unit.

61905. Universal Oil Products Company. Method of catalyst manufacture. Accepted on 8th April 1958.

Vaporizing an aluminium halide prepared an refractory oxide and a hydrogenated composite and heating the product.

62015. Laboratories Vifor S.A. Apparatus for the infusion of liquids in a living body. Accepted on 3rd April 1958.

A reservoir and a conduit made of a flexible material are secured to one another, and a stopper of rigid and breakable material is disposed in the conduit.

62231. Phillips Screw Company. Method of piercing type for hobbing punches. Accepted on 9th April 1958.

Pressing a punch into a block of die making material, thereby displacing outwardly and upwardly a portion of said material.

62315. Zahnradfabrik Friedrichshafen Aktiengesellschaft. Improvements in and relating to power-assisted steering for motor vehicles. (27th (May 1957). Accepted on 5th April 1958.

Steering nut is provided which is axially slidable in the interior of the power piston.

62408. Lepetit S.p.A. Process for preparing 2-methyl-2-propyl-1, 3-propanediol dicarbamate. (29th March 1957). Accepted on 7th April 1958.

Suspending one mole of 2-methyl-2-propyl-1, 3-propanediol and at least 2 moles of an alkali metal cyanate in an organic solvent.

Opposition Proceedings

(1)

An opposition has been entered by Alembic Chemical Works Co. Ltd., to the grant of a patent on application No. 57343 made by E. Belik, Ing. M. Herold and Rndr J. Doskocil.

(2)

An opposition has been entered by Alembic Chemical Works Co. Ltd., to the grant of a patent on application No. 57344 made by E. Belik, Ing. M. Herold and Rndr J. Doskocil.

(3)

An opposition has been entered by Societe Des Usines Chimiques Rhone-Poulenc, to the grant of a patent on application No. 59703 made by Egyesult Gyogyszer Es Tapszergyar.

Patents Sealed

56064. 57053. 57067. 57754. 57892. 58207. 59386. 59876. 60114. 60162. 60186. 60589.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Dr. Jaroslav Nemec, Scientific Specialist, of Boleslavskaa 10, Praha 12, Czechoslovakia, a Czechoslovak Citizen seek leave to amend the claim in the specification in respect of Patent application No. 56071. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

The amendment proposed by Siemens Brothers & Co. Limited in respect of Patent application No. 56621 as advertised in the Gazette of India, Part III, Section 2, dated the 16th November 1957 has been allowed.

Registration of Assignments, Licences, Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interests:—

57255—Dattaji Rao Bhujanga Rao Ghorpade.
